The figure contains two schematic diagrams, 3A and 3B, illustrating the internal structure of semiconductor devices. Diagram 3A shows a vertical stack of layers: a top layer (3A), a middle layer (4A), and a bottom layer (6A). Two electrodes, 2A and 5A, are positioned on the left side of the middle layer (4A). Electrode 2A is connected to the top layer (3A) and is labeled with a terminal symbol and TP1. Electrode 5A is connected to the bottom layer (6A) and is labeled with a terminal symbol and TP2. Diagram 3B shows a similar vertical stack of layers: a top layer (3B), a middle layer (4B), and a bottom layer (6B). Two electrodes, 2B and 5B, are positioned on the left side of the middle layer (4B). Electrode 2B is connected to the top layer (3B) and is labeled with a terminal symbol and TN1. Electrode 5B is connected to the bottom layer (6B) and is labeled with a terminal symbol and TN2.
